

ROVER DUTIES AND RESPONSIBILITIES

The responsibility of the Rover (upcoming Rector) is to become expertly familiar with all areas of the Tres Dias Weekend.

This is an opportunity to observe all the functions of the various service areas that have not already been experienced.

It is a time to be available to the Rector for assistance in any need.

Attendance is required at preliminary meetings (i.e., Professor, & Area Head) as well as all full team meetings.

A good deal of time should be spent in the Rollo Room observing candidates as prospective team members.

A notebook for recording observations will be very helpful.

The Rover is still under the authority of the rector and should not give instruction to team members.
